

Sunshine Heroes Elderberry Immune

Every Immune System Needs a Hero

Fall and winter months can be especially challenging for children. Their immune systems are not fully developed; their picky diets often lack the vitamins and nutrients they need to stay healthy; and schoolrooms are a breeding ground for immune-system stressors. Sunshine Heroes Elderberry Immune to the rescue!

BENEFITS

- Supports the immune system with key immune-enhancing herbs and vitamins.
- Kids love the delicious, fruity soft chews.

HOW IT WORKS

Sunshine Heroes Elderberry Immune children's soft chews provide key vitamins and nutrients that play essential roles in building and maintaining healthy immune function. Main ingredients include vitamin D₃, vitamin C, zinc, elderberries extract, astragalus root, echinacea root, reishi mushroom and maitake mushroom. Elderberry Immune also contains the Sunshine Heroes Protector Shield Blend of antioxidants and other nutrients.

HOW IT WORKS

Mounting evidence shows that in addition to supporting bone health, vitamin D is critical to the immune system. Vitamin D shortages are now being recognized as widespread in the United States, prompting health officials to plan an increase to the Recommended Daily Intakes for children and adults. Scientific evidence suggests that vitamin D offers a variety of benefits to the immune system, including enhancing innate immunity. In fact, vitamin D receptors are present on activated T- and B-lymphocytes, monocytes and macrophages—all important components of the immune system.

Elderberry fruit contains flavonoids—antioxidants that help support the immune system. Elderberry has been widely studied and found to boost the immune system. A randomized double-blind, placebo-controlled study found that people who received elderberry extract had significantly stronger immune system response compared to a placebo group. (*Phytochemistry*. 2009 Jul; 70 (10): 1255–61)

NSP ADVANTAGE

Sunshine Heroes Elderberry Immune contains the Protector Shield Blend—a Whole Food blend of 17 fruits and vegetables. These fruits and vegetables provide powerful phytochemical nutrients and antioxidants—potent plant compounds noted for their health-protective benefits. The Protector Shield Blend provides choline, inositol and 10 amino acids—essential nutrients for healthy brain development and cell communication for growing children.

INGREDIENTS

Sunshine Heroes Elderberry Immune soft chews contain vitamin D₃, vitamin C, zinc, elderberry extract, astragalus root, echinacea root, reishi mushroom and maitake mushroom. It also contains the Protector Shield blend: mangosteen fruit, cranberry fruit; broccoli flower; spinach leaves and stems; asparagus stems; carrot root; tomato fruit; açai fruit; pomegranate extract; white grape, apple, pear, orange, pineapple, cherry, strawberry and blueberry fruit juice concentrates; l-leucine, l-lysine, l-valine, choline, inositol, l-isoleucine, l-threonine, l-phenylalanine, l-arginine, l-cysteine, l-methionine and l-tyrosine. Other ingredients include organic tapioca syrup, organic evaporated cane juice, pectin, citric acid, natural colors and flavors, sodium citrate and organic sunflower oil.

RECOMMENDED USE

Chew up to 2 soft chews per day as a dietary supplement. Chew carefully and thoroughly before swallowing.
